For Falling Hair

You Run No Risk When You Use This Remedy.

We promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using Rexall "93" Hair Tonic, with persistence and regularity, for a reasonable length of time. It is a scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50c and \$1.00. Remember you can obtain Rexall Remedies in this community only at our store—The Rexall Store. F. H. Falkenberg.

The chances are against the man who never takes chances!

Saves an Iowa Man's Life.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this matchless medicine completely cured him. Its positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only 50c. at W. H. Windrow's.

Not Sisters

Now and again you see two women pass-
ing down the street who look like sisters.
You are astonished to learn that they are
mother and daughter, and you realize that
a woman at forty or forty-five ought to be
at her finest and fairest. Why isn't it so?
The general health of woman is so in-
timately associated with the local health
of the essentially feminine organs that
there can be no red cheeks and round
form where there is female weakness.

Women who have suffered from
this trouble have found prompt
relief and cure in the use of Dr.
Pierce's Favorite Prescription. It gives vigor and vitality to the
organs of womanhood. It clears the complexion, brightens the
eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."
Any sick woman may consult Dr. Pierce by letter, free. Every letter is
held as sacredly confidential, and answered in a plain envelope. Address:

The Twilight of Life.

The muscles of the stomach in old
age are not as strong or active as in
youth and in consequence old people
are very subject to constipation and
indigestion. Many seldom have a
bowel movement without artificial aid.
Many, also have unpleasant eructations
of gas from the stomach after eating.
All this can be avoided by the use of
Dr. Caldwell's Syrup Pepsin, which
permanently regulates the bowels so
that passages come naturally, and so
strengthens the stomach that food is
digested without discomfort. It is
absolutely guaranteed to do what is
claimed, and if you want to try it
before buying, send your address for a
free sample bottle to Pepsin Syrup Co.,
119 Cladwell Bldg., Monticello, Ill. It
is sold by all druggists at 50c and \$1.00
a bottle.

Accompaniments of Eating.

Meals are best taken during those
periods when the body is at rest. The
time for taking food must not be too
short. During the meal it is better
not to think of business or serious or,
perhaps, even sad things. Our whole
and undivided attention should be
given to our meals. Pleasant com-
pany, light conversation, jokes and
stories add to the enjoyment of food.

FOR FLETCHER'S
CASTORIA

THE FUNNY STREAK

OTHERWISE KNOWN AS A "KEEN
SENSE OF HUMOR."

Quality Every Man Insists He Pos-
sesses, and, Worst of All, Per-
sists in Inflicting it on
His Neighbors.

A sense of humor is something
which every man possesses in a super-
lative degree. Men will admit they
have no reverence, they will ill-treat
their wives, outdo their neighbors—
will own up indeed to every crime in
the calendar, but not to being devoid
of a sense of humor.

And, moreover, the sense of humor
belonging to every man is invariably
"keen." The most stolid, phlegmatic
person, who never gets near enough to
the point of a joke to throw his hat
upon it, will tell you, with tears in his
eyes, that he never would have been
able to live through all the things he
has lived through if it hadn't been for
his sense of humor.

The worst offender, however, is the
one who makes a business of exploit-
ing this universally assumed trait. He
takes you aside in a kind of joyous
confidence.

"I couldn't begin to tell you," he de-
clares, "all the funny things I see. I
don't know why it is"—this with an
air as if it were a heaven-sent gift,
which he, modestly, is in no sense re-
sponsible for—"but anything funny—
real funny—appeals to me. If I could
only remember to set them down! But
somehow I never think of it at the
time."

He then proceeds to tell you of an
incident that happened to himself—
personally. You have heard the story
perhaps ten years back—so far back,
indeed, that you have almost forgotten
it. But you wouldn't let your friend
know that for the world.

Why is it that a man, modest in
other respects—who, if he saved an-
other's life, would conceal it—boldly
and unblushingly talks about his
wonderful sense of humor without the
slightest compunction?

Next to him comes the young girl of
the family; let us call her dear Mabel.

You've seen Mabel, of course?

"Do you know," her mother declares,
"that child sees the funny side of
everything! You just ought to hear
her! No matter where she goes, it is
always the same! Why, last night we
sat up listening to her while she en-
tertained us with what she saw on
the trolley car—just think of it—and
—well, I thought I should certainly
split with laughter. Mimic! Perfect!
And you ought to see the poetry she
wrote! She'd be awful mad if she
knew I was showing it. I wanted her
to send it to the papers, but I couldn't
persuade her. Isn't it perfectly splen-
did. I suppose she ought not to be
encouraged too much. I have a friend
who's a writer, and he advised me to
keep her down—but it does seem as
if talent like that ought to be put
to use. Oh, you just wait till you hear
her. Such a sense of humor!"

You don't wait. You love dear
Mabel—at a distance. You sneak
away in the gloaming. You have been
there before. Henceforth when Mabel
heaves in sight you put your helm
hard-a-port and "wear ship."

It has often been shyly intimated—
by bachelors—that women have no
sense of humor.

Yet think of the monumental joke
every woman plays on a man when
she marries him.—Success Magazine.

His Name Ruined Him.

George Higball of Chicago ap-
peared before Justice Stein yesterday
morning, says the Detroit News. The
court advised him to have a falling
out with his namesake.

"I can't, judge," pleaded Higball.
"I always was a sociable fellow and
when one of my friends says: 'Hello,
Higball, have a higball,' I know. I
ought not to, but I do."

"I used to be a high-salaried base-
ball player with a high batting aver-
age, but the kids in the bleachers
made my life miserable. Every time
I got to bat they would holler 'Feed
him higballs,' until every pitcher got
my goat and I had to quit. It's awful
to have a name like that."

The court dismissed him with the
suggestion that he call himself
"High."

Richard the Longhead.

"Up to the age of 16 Dick had re-
tained the proper scorn of things
feminine. Then he went to a dan-
cing school and was smitten by the
charms of several youthful Eves. Ac-
cordingly, Dick approached his fa-
ther and required theater tickets for
two."

"Father complied, and merely asked
as he turned over the seats, 'Which
girl is it?'"

"I'm going to take Mabel," Dick re-
sponded.

"Then she's the one you like best?"

Father continued.
"Dick turned a superior and pitying
eye upon his parent. 'Oh, no. I don't
like her best. You don't understand
the situation, father. It isn't the girl
I care about. It's the experience I
want.'"

He Spoke Too Soon.

A well-known business man attended
his daughter's commencement exer-
cises at an eastern college recently.
He had been greatly pleased with the
beauty and dignity of the exercises,
and was discoursing to his wife upon
the refining influences of college life.
Suddenly his impressive monologue
was cut short. A girl, in cap and
gown, came dashing down the steps
of the main hall, waving her diploma
and shouting: "Educated, by gosh!"

COME to Hondo's Trades Day next Saturday and bring what you have to trade.

COL. Mose Harris to his fellow Republican sufferers: "Cheer up, boys; the post offices are still open!"

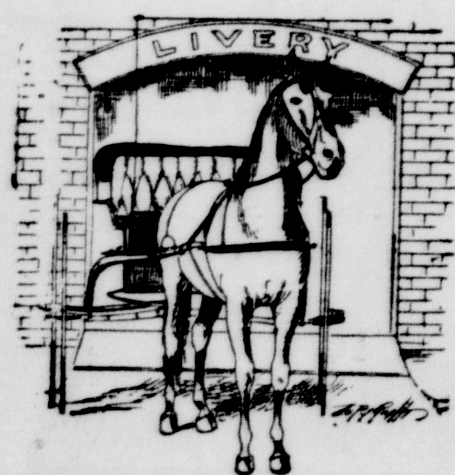

THE Mansfield Sun, a sprightly weekly published at Mansfield, Texas, by J. M. Whitlow, is a welcome exchange.

It is perfectly natural when a man has a white elephant on his hands that he should wish for some one to help him hold it!

THE Lytle Herald is the latest journalistic candidate for public favor. Joe Webb is the editor and the Herald is typographically neat and attractive and editorially spicy and interesting. We wish the new venture success.

THEY spell it John N. G-a-r-n-e-r now. After next Tuesday it will spell John N. G-o-n-e-r.—Texas Republic. The Major's theory was all right but he applied it to the wrong man. It is now Noah A-l-l-i-n.—Nordheim View. And by a strange paradox the Republican party was all put out when Noah was "all in"!

Don't forget that by paying a three dollar road tax now to the County Treasurer and taking his receipt for it you can secure your exemption from road duty in Medina County next year. The money will go into the general road fund and will do as much or more for the roads as your full five days work. Get busy and pay the tax.

A PLAN for drawing trade to a town that has been successfully worked at several points might be adopted to advantage in Moore, remarks the Moore Model, and it is especially applicable to Hondo at this time. The plan is as follows: An agreement was reached between all the merchants whereby they offered special sales on certain days, each merchant selecting some special line of goods upon which he made a lower price than usual. Thus one house would sell gloves at a special price, while another would offer bargains in dress goods. Every line of business was represented only care was taken that no conflicts occurred. Prizes were then offered to the farmer bringing in the best load of corn or the handsomest baby and the bargain day was extensively advertised in the surrounding country, the names of the merchants and their special sales being in all cases stated. The farmers responded in a most gratifying manner and the merchants were well pleased with the plan. The idea has already been carried out in several towns.

THE University of Texas has long realized the importance of the country schools of Texas. Under the leadership of Mr. A. S. Blankenship, a graduate of the University, and formerly County Superintendent of Coryell County, a campaign has been started for improved conditions in the rural schools. Mr. Blankenship travels practically all of his time throughout the State delivering lectures on schools and school buildings, their proper heating, lighting, and general hygienic conditions. His lectures are illustrated with stereopticon pictures, and his services are given free to communities that wish to hear him talk. Applications for his lectures should be addressed to the Extension Department of the University, Austin, Texas.—University Bulletin.

THE people of Rocksprings recently meted out swift and summary punishment to a fiend in human form who committed a heinous crime in that vicinity and now all of the watery-blooded editors of the country are having conniption fits and falling over in them on account of the outrage against the "majesty of the law"! Why not waste some sympathy on the poor victim out in the graveyard and her motherless children and not so much on that abstract thing called the "law"? And as to the victim of the mob's work, he needs no further consideration. Those men who are ready to condemn the people of Rocksprings should withhold their judgment until they, too, have been similarly tried.

COMPENSATION

Compensation is the term applied to the methods used to secure a uniformity of time in the varying temperatures to which a watch is exposed. The cause of the error is the expansions and contractions of metals. The South Bend Balance wheel is made of two metals of unequal expansion, so proportioned, one to the other, that the expansion and contraction is neutralized perfectly. A South Bend Watch keeps time in all temperatures, as well as in all positions.

WHITE WOOL SCARF KING'S ROYAL BALL

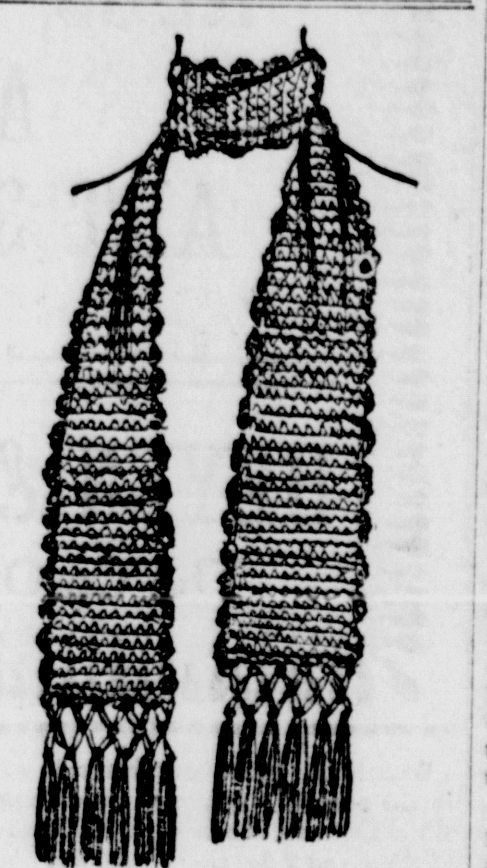

DIRECTIONS FOR CROCHETING PRETTY ARTICLE.

How An Attractive and Useful Little Garment May Be Made With Ease by Any Clever Woman.

Our model is worked in white Ivorine wool, with a No. 10 bone hook—tricot. But almost any other kind of wool and suitable hook may be used.

Work a chain for width of scarf—this and also the length, is entirely at the discretion of the worker.

Row 1—Draw up a loop through each chain stitch; draw the wool

through the end loop, then work off the rest of the loops two at a time as an ordinary tricot.

Row 2—Commence as usual, but pass the hook through the upright thread, and also through the top thread between that and the next upright, and draw up a loop through both threads at once, then draw a loop through the top thread between each of the uprights as far as the last two stitches, this time take the upright and the top thread following together—as at the commencement of the row, draw the next loop through both front and back uprights of the last stitch; work off as before, drawing through one loop at first, and then through two at a time for rest of row.

Continue repeating this row for length of scarf, the two stitches at each end of the row making a nice firm edge on both sides of it, and will prevent the work from slanting.

Along each side work a double crochet in the end stitch of the first row, pass one, five trebles in next, pass two, double crochet in next, repeat from *.

Work a single crochet—or chain stitch—in the top back thread of each stitch of previous row.

Before commencing the fringe, work about three rows of five chain loops upon each end of the scarf.

For the Fringe—Cut wool into 26-inch lengths, pass the hook through the first loop at end of scarf, fold four strands of the wool exactly in half and draw them a short distance through, forming a small loop, draw the eight strands, right through this loop and pull gently, drawing the knot close up to the work. Repeat this into every loop, taking care all the knots are turned the same way.

To knot the fringe, take four threads of the first tassel and four threads of the next one, and tie them together about an inch below the other knots, tie the remaining strands of the second tassel to four of the third one and repeat to end of row, being careful to keep the knots quite level.

Tie another row of knots an inch below these, but this time taking the eight strands of each tassel and tying them together.

The two more rows of knots at equal distances below these and cut the ends level with a pair of sharp scissors.

Light Colored Dresses.

To keep light colored summer dresses and stockings pretty and fresh looking, purchase packages of any standard dye, as many colors as you have different colored dresses.

Dissolve each dye in about a quart of boiling water, and when cool bottle. When washing your pink or blue dress add a few drops, or sufficient to make the desired color, of the pink or blue dye, as the case may be, to the last rinsing water.

Just as a few drops of bluing added to the rinsing water will benefit white goods, so this compound will restore the faded dress to its original brightness. The dresses must be hung to dry in a shady place.

The Fashionable Umbrella.

It has a long—very long, handle. And a great round silver cap. Or a severely plain hardwood handle.

If there is any engraving it is done in old English letters.

Colored taffetas—dark blue, red, green or brown, are almost as much in vogue as black.

Smooth finished hardwoods, inlaid with silver, make elegant handles.

Many men prefer the wooden stick—as being more substantial and masculine looking than the steel rod.

EVENT OF SURPASSING BRILLIANT FEATURE OF

THE NO-TSU-OH CARNIVAL

Event Will Mark First Formal Opening of Vast Auditorium at City of Houston.

The first event for the monster auditorium now being completed in Houston, will be the grand ball, and unveiling ceremony for King Nottoc and Queen Thil, which occurs on the night of November 16. During the present year preparations for this event have been going on incessantly, and not only will the occasion be suited to the place, but no pains are being spared to make Houston's new auditorium a fitting place for the gorgeous affair that is really the culminating event of the No-Tsu-Oh. It would not be possible to go into details as to the splendor that awaits the people, for even to the one initiated into the mysteries, there is always a multitude of surprises.

Just what the decorations for the auditorium will be has not been divulged by the committee having this in charge, but enough has been said to permit it to be authoritatively stated that the general scheme will be original in tone. It is impossible to state with what this Oriental tone will be accomplished on account of the air of mystery that surrounds the working out of the details. But it is known that the illuminations for the event will excel anything ever before undertaken. The auditorium will be one blaze of light from top to bottom, lights of all colors, blended and the diffuse radiance will play its part in the general tableaux when the coronation ceremony takes place.

It is thought that fully ten thousand people will be present on the floor and in the seats when the big tableaux begins. Just what the program for the unveiling will be, is not known. But it is said there will be several transformation scenes of marvelous beauty which will form the basis of the little plot leading up to the unveiling, and the balance of the festivities. The scores of workmen now at work on the scenery are mute as to what their hands are supposed to produce for the event. But it will be supposed that the scene will open in woodland, where Knights and Ladies will be found amusing themselves which scene will perhaps change to the spacious gardens in front of a castle. Then the inner halls of the court will be shown, changing quickly in the darkened room to the throne room where the King and Queen will sit in all their court splendor. The ceremony will then take place, the unveiling, and then will come the grand march, participated in by the King and Queen, and the members of the Court. Following this those bearing invitations will be permitted the floor.

The King's costume alone will cost \$1,000, the headpiece, side arms and jewels alone representing the highest things in the costumer's art. The Queen's gown will be a model of courtly perfection, and the cost cannot be ascertained at the present time. Every costume in the King's retinue will represent a small fortune.

It is very doubtful if such an event will again be witnessed in Houston, and every effort has been made to outdo all other balls in honor of King Nottoc and Queen Thil. It has been demonstrated, however, that each succeeding year will develop new features, and it is possible that the brilliance of this affair will fade by comparison with the events to come.

A Historic English Church.

The historic Church of St. George, Baher, England, which has been closed for public worship for half a century, is in such a bad state of repair that unless it is restored at once it will inevitably go to ruin. Built in the time of Henry VIII, it has a great many royal and historical associations. It was attended by Queen Victoria, Princess Charlotte, the first Duke of Newcastle and his brother, Henry Pelham, the leaders of the well-known Pelham Ministry; Edward Gibbon, the historian; Jane and Anna Maria Porter, the novelists, and many other persons of interest. It has also associations with Sir Francis Drake, who is said to have presented one of the bells. The late King Edward showed considerable personal interest in the building, and was a large subscriber to the funds.

A Handsome Woman

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangements, blood impurities and other irregularities exist, good complexion, bright eyes and sprightly movements cannot exist. Internal derangements reveal themselves sooner or later on the surface. Headache, dark rings around the eyes, sallow skin, a constant tired feeling—mean that the liver and digestive organs are needing help and correction. Chamberlain's Stomach and Liver Tablets give this necessary help. They work in nature's own way. They do not merely flush the bowels but tone up the liver and stomach to fulfill their proper functions. So mild and gentle do they act that one hardly realizes that they have taken medicine. Chamberlain's Tablets can be relied upon to relieve biliousness, indigestion, constipation and dizziness. Sold everywhere. Price 25 cents.

"Dr. Miles' Nervine Completely Cured Our Little Boy of Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy. Many a father or mother would give their all to restore such a child to health.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for four years. I tried three doctors and one specialist but all of them said he could not be cured, but Dr. Miles' Restorative Nervine and Dr. Miles' Nerve and Liver Pills made a complete cure. He is now hale, hearty and gay. It has been three years since he had the last spell. I shall give Dr. Miles' medicines praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply."

Dr. Miles' Nervine

is just what it is represented to be, a medicine compounded especially for nervous diseases, such as fits, spasms, St. Vitus' dance, convulsions and epilepsy. These diseases frequently lead to insanity or cause weak minds. Dr. Miles' Nervine has proven most effective in relieving these dreaded maladies.

Sold by all druggists. If the first bottle fails to benefit your money is returned.

A Barbed Wire Cut, Collar or Saddle Gait not properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly the healing process begins at once and the wound heals from the inside outwardly, thus forming a perfect cure without leaving a scar. If the wound heals on the outside too quickly, pus forms under the skin, face and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00. James F. Ballard, Prop. St. Louis, Mo.

The Perambulating Showcase

By Herbert Kaufman.

The newspaper is a huge shop window, carried about the city and delivered daily into hundreds of thousands of homes, to be examined at the leisure of the reader. This shop window is unlike the actual plate glass showcase only in one respect—it makes display of descriptions instead of articles.

You have often been impressed by the difference between the decorations of two window-trimmers, each of whom employed the same materials for his work. The one drew your attention and held it by the grace and cleverness and art manifested in his display. The other realized so little of the possibilities in the materials placed at his disposal that unless some one called your attention to his bungling you would have gone on unconscious of its existence.

An advertiser must know that he gets his results in accordance with the skill exercised in preparing his verbal displays. He must make people stop and pause. His copy has to stand out.

He must not only make a show of things that are attractive to the eye but are attractive to the people's needs as well.

The window-trimmer must not make the mistake of thinking that the showiest stocks are the most salable. The advertiser must not make the mistake of thinking that the showiest words are the most clinching.

Windows are too few in number to be used with indiscretion. The good merchant puts those goods back of his plate glass which nine people out of ten will want after they have seen them.

The good advertiser tells about goods which nine readers out of ten will buy if they can be convinced.

Newspaper space itself is only the window, just as the showcase is but a frame for merchandise pictures. A window on a crowded street in the best neighborhood, where prosperous persons pass continually, is more desirable than one in a cheap, sparsely settled neighborhood. An advertisement in a newspaper with the most readers and the most prosperous ones possesses a great advantage over the same copy in a medium circulating among persons who possess less means. It would be foolish for a shop to build its windows in the alleyway—and just as much so to put its advertising into newspapers which are distributed among "alley-dwellers."

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga. "I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings. I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui."

"Since taking Cardui, I am so much better and can do all my housework."

Take CARDUI

The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out. Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition. In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health. ARRIVAL OF THE KING

COMING OF ROYAL YACHT WILL MARK OPENING OF CARNIVAL.

ARRANGEMENTS INCLUDE

One of the Most Gorgeous of Daylight Pageants at Houston November 14th.

The boom of a cannon on the Houston Ship Channel, early on the morning of November 14, will announce that the inhabitants of No-Tsu-Oh are about to receive a visit from their King, Nottoc XII. As is usual King Nottoc will enter the gates of the city not far from the Turning Basin, at which point he will be met by the Navy of the Kingdom, and will be attended to the heart of his favored city by all his Knights, courtiers and all his brilliant retinue.

This will be one of the most important events of the No-Tsu-Oh carnival held in Houston during November. During the past years not so much stress has been placed on the entrance of the King to his Capitol City, but during the carnival season of 1910 it is intended that not a stone will be left unturned that will make the opening event of surpassing brilliancy. More of the local marine will take part in the scheme, and from the moment of the entrance of His Majesty to the city, at the foot of Main street, to the time he departs there will not be a moment ennui.

Fifty thousand people will gather at the foot of Main street to wait for the King. As the sun mounts in the heavens the crowd will be augmented by the military which will form in a double cordon about the landing. Soon after ten o'clock the coming of His Majesty will be betokened by the whistles far down the channel. They will be answered by the whistles up town. Suddenly there will dash into sight a furious little tug, bearing the colors of the King, and a herald aboard will announce to the citizens of No-Tsu-Oh that His Majesty has arrived in his "beloved city." Then will follow a ship load of Knights, and ladies of his court. Following this will be his personal attendants, guards, etc. Still several more boats will follow, and each contribute to the beauty of the scene. As if by magic the armored Knights will produce horses, and will form at the foot of Main street, directly at the foot of the military.

Then, as the Royal band begins to play, the Royal yacht will round the bend and will touch the foot of Main street. The courtiers will alight, the Royal mantles will spread across the landing, as the foot of the King touches land in No-Tsu-Oh the cannon on the hill top will boom.

Then the fun will begin. No time will be lost by the dazzling throng. The King will be quickly conveyed to the Royal Chariot, and the horsemen will lead the way, preceded only by the heralds who will trumpet the approach of the King as they pass through the streets. The whole affair will be of unusual brilliancy. As usual the throng will stop at the City Hall, where the Mayor will deliver to the King the keys of No-Tsu-Oh. With the keys go the freedom of the city. The King will make fitting reply and the throng will move on, only stopping for a royal lunch, the first event in honor of the King, this usually being held at the Country Club.

The initial event of the great carnival, the arrival of the King, is one of the daylight numbers on the program, and like all other daylight maneuvers, will be costumed in manner of elegance that borders on the extravagant. Nothing will be overlooked to give the visitors a pleasing idea of the magnificence of the carnival spirit.

Not Sorry For Blunder.

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, lagrippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. Guaranteed by W. H. Windrow.

BABY PLANETS NUMEROUS

Asteroids, All Moving in Orbits Between Those of Mars and Jupiter, Number 659.

It is related that when the one hundredth asteroid, or minor planet, was discovered, many years ago, certain astronomers organized a celebration of the event and that while the solemnities were in preparation two or three more asteroids were picked out in the sky by the diligent observers.

These bodies, so far as recognized and officially mapped, now number 659. They all move in orbits between those of Mars and Jupiter and may be either the debris of a ruined planet or the results of an abortive attempt of nature to form a planet.

The development of astronomical photography has added large numbers of these minor planets to our lists. In the Harvard observatory at Arequipa, Peru, sixty-four separate asteroids were photographed between 1898 and 1901, and forty-seven of these were new discoveries.

As may be imagined, the number of these bodies is now so large that it is a difficult matter to tell whether one of them is new or is to be identified with a previous discovery. In several instances mistakes of this kind already have been made. The swarm of planetoids is a numerous one, and it has become a kind of astronomical sport to pursue them and pick them out.

As instruments become more powerful and methods more delicate the smaller bodies of the group will be detected one by one and added to our charts. The exact value of such discoveries to the science of astronomy, however, is somewhat problematical.
